

MIDAS

Student Data Pilot

Given the complexity and variety of data collected at Mason during the normal course of operations, launching data governance for all domains and all actors at once is not feasible. Rather, governance will be piloted within the student data domain, specifically within those areas under Enrollment Management, i.e. admissions, financial aid, and registrar. Additional student data will follow along with the integration of additional domains.

For the pilot, the following pared down structure will be implemented:

Student Data Pilot Participants

Organization	Title	Department/Unit
Executive Steering Committee	Vice Provost for Institutional Effectiveness and Planning	OIEP
	Assistant VP, Enterprise Service Delivery and Deputy CIO	ITS
	Vice President for Enrollment Management	EM
Data Governance Board	University Registrar	Registrar
	Dean of Admissions	Admissions
	Director of Financial Aid	Student Financial Aid
	Director of Research and Analysis	OIEP
Data Steward Council	Director, Registrar's Information Technology	Registrar
	Associate Director of Financial Aid – IT & Scholarships	Student Financial Aid
	Assistant Dean of Admissions	Admissions
	Director of Data Analytics	OIEP
	Strategic Modeling and Data Analyst	CEC
	Manager, Business Intelligence Services	ITS
	Director of Business Intelligence and Analytics	EM
	Business Intelligence & Analytics Manager	UL
	Enterprise Data Integration Services Architect	ITS
